SILCA FLIP HEAD EMPTY

Description

The Silca Flip Head will allow you to give your customer what they want, a "flip key". With the ability to carry virtually any transponder chip and a extensive range of blades the possibility are endless.

Features

- Universal flip head.
- Red or black plastic cover.
- Transponder adaptor to suit most chips
Small or large format glass pellets or carbon wedge.
- Supplied with 2 roll pins (just in case).
- Blades sold separately.
- Supplied in hang-able poly bag.
-  We recommend a flip blade removal/insertion tool such as the BDS one we offer to accompany the kit.
